

About Us

Medirex Systems Inc. is a Communications Improvement Company that delivers information solutions by integrating people, processes, and technology. By achieving unique and in-depth partnerships with our clients, we anticipate your needs and design innovative solutions-oriented products, services, and support programs that deliver the right information to the right person at the right time.

Our software solutions and consulting services help our clients increase the efficiency of their operations by reducing errors, streamlining business processes and achieving closer integration with clients, suppliers, employees and applications.

Our skill sets are as follows:

- Forms design, electronic; mapping data to forms
- Installing Document Management applications
- Understanding and facilitating changes to optimize the Hospital Information System (clinical and financial)
- Forms design and manufacturing, pre-printed forms
- Process Improvement consulting
- Tailoring products and services for individual client needs

Healthcare is the most complex of knowledge based processes in the business world and requires solutions providers to deliver training and support to develop the knowledge needed for your complex environment. For over 30 years, Medirex has been developing the solutions that address the constantly changing needs of healthcare organizations across North America.
